

QUICK-SET ADHESIVE

Quick-Set CA (Cyanoacrylate) adhesive has a clear, fast cure and strong bond for a variety of materials, including wood, metal, glass, rubber, ceramics and plastic.

Choose a viscosity that does not absorb completely into the surfaces to be bonded.

CA-Thin has fast setting and curing for relatively non-porous surfaces.

CA-Medium is a great general-purpose adhesive that penetrates porous wood to harden and seal surfaces. CA-Thick has good filling characteristics for larger cracks and uneven surface bonding.

CA-Flexible has extremely good bond strength that retains a flexible condition when cured, making it ideal for pen making or wood to metal applications. Activator in spray pump bottle significantly accelerates the cure of all the CA formulas.

Aerosol Activator spray application is more atomized and reduces potential foaming problems. Use Debonder for clean-up and skin cleaning. Change-A-Tip Pack includes quick-change cap adapter, four precision tips and storage cap.

GORILLA GLUE

Premium Gorilla Glue is for indoor and Outdoor Use, Bonds Wood, Stone, Metal, Ceramics & More, 100% Waterproof, Gorilla Glue is the strongest and most versatile glue on the market today. We do everything technically possible to make our glue the finest, strongest and most pure adhesive in the world. It takes just a 1/2 ounce of Gorilla Glue to cover one square foot. That's 3 to 4 times the coverage of other glue. In addition to being 100% Waterproof, incredibly strong Gorilla Glue bonds wood, stone, metal, ceramics, Corian®, styrofoam and more. Remember that this glue will foam 3 to 4 times its applied size, so a little goes a long way.
